Great to hear from you unfortunately I was scheduled but heading to Tokyo in morning

Holly Krutka and Stephanie Weiler are going down for us  
Lilly and I had down this since you left

We only have 3 recipients hard these days for utilities to take the praise publicly  
Have a plant in China India and clean coal work being performed in WY

This could very well be the last one which is a shame

Hope you are doing well please stay in contact

All the best to you proud of your accomplishments

Bryan

Hope all is well.

Is Someone from Peabody Coming to PowerGen and Handing Out Clean Coal Awards? If so, who and when? I have a pass but did not see on the schedule. Would be happy to catch-up. The site is 10 minutes from our office.

FYI, our gas indexed rail contract led to huge burns in November at Stanton as the 1<sup>st</sup> of month gas price used for rail was low and the rest of the month gas blew up. We will probably be on the other end of that in December or January and our gas units will run real hard.
